## REACH Compliance Declaration

The European Regulation (EC) 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) entered into force on 1st June 2007 and ECHA Candidate list, updated January 15 2019.

FCD-Tech B.V. is a manufacturer and distributor of electronic products, and thus has to be classified as so-called „downstream user“. Therefore Article 6 of the REACH regulation, which requires a registration if quantities of one ton or more per year are involved, does not apply.

The products which we are supplying are solely non-chemical products. Moreover, and under normal and reasonably foreseeable circumstances of application, the goods shall not release any substances. Therefore, in accordance with Article 7, FCD-Tech B.V. is neither obligatory for registration nor for the creation of material safety data sheets for its products.

We will immediately inform our customers in correspondence to REACH Article 33, if any Substances of Very High Concern (SVHC) in a concentration of > 0.1 mass % in our goods will be classified alarming by the European Chemicals Agency ECHA. Based on the current status, however, we do not expect such an incidence to occur in the foreseeable future.

Independent of that fact, in our own interest and in order to guarantee a high level of product safety for our customers, we are pursuing the realization of REACH on the part of our suppliers of chemistry and prepared material such as manufacturing and processing materials.

FCD-Tech B.V.
